## AMENDMENTS

### *In the Claims*

Please amend claim 1 as follows:

- 
1. A method for fabricating an inductor structure comprising:
- providing a substrate;
  - forming over the substrate a planar spiral conductor layer to form a planar spiral inductor, wherein a successive series of spirals within the planar spiral conductor layer is formed with a continuous variation in at least one of:
    - a series of linewidths of the successive series of spirals; and
    - a series of spacings separating the successive series of spirals.
-
